Designer Clive M. Dent

Chief Designer  
Cape Dory Yachts

Designed for speed under sail or power. Built for comfort at sea or dockside.

Are you ready for the comfort and protection of a full size pilothouse with a broad field of vision? Ready to crank up a 46 h.p. diesel to steam into port when the weather turns foul? How would you like a wide, 40 sq. ft., aft cockpit with a flat deck for dining, lounging and fishing? A head with shower . . . 2 cabin privacy? All this and more, without giving up the pleasures of sailing a well-designed, easy-handling, motorsailing yacht . . . the New Cape Dory 300 Motorsailer. The CD300 Motorsailer has a beamy, shoal draft "full-keel" with a long waterline. She's designed to sail with good speed — on her lines to keep your guests upright and comfortable whether running or beating.

The Cape Dory 300 Motorsailer . . . the rewards are endless.

### Owners manual and Owners Association

Just to be sure you are thoroughly familiar with your new Cape Dory, every new owner receives an owners manual that details the various systems, recommended maintenance and lists all vendor supplied parts, with addresses and phone numbers.

And to keep Cape Dory owners aware of current developments, they are automatically enrolled in the Cape Dory Owners Association. As members of the CDOA, you will receive news on product developments, regional and national seminars, tips from other owners and a host of valuable information to add to your cruising enjoyment and safety.

### Free half hull

When an owner is about to launch a new Cape Dory, there's a free half hull of the boat included.

The model, with molded-in colors, is mounted on a heavy, oil-finished teak plaque. A brass plate to engrave with your boat's own name, screws into the base. See your Cape Dory dealer for details.

Send me information on the Cape Dory yachts which I have checked below:

Typhoon Senior  26  28  30  32  330
